## Preface

Since June 30 2015, Domestic non-special use cosmetic manufacturers should file product information on-line according to “Requirements for Filing of Non-special Use Cosmetic Product ” ,before the product marketed. Filed product information will be published on the website of China Food and Drug Administration for public inquiry, after confirmed by the provincial food and drug administration department. The provincial food and drug administration department will no longer grant filing certificates for non-special use cosmetics. The provincial food and drug administration department should organize the inspection of filing products within three months after product filing. The products that do not meet the requirements should be ordered to correct. The illicit ones should be investigated according to law, and stated in the relevant filing information column. The ones that not fulfill filing obligation for domestic non-special use cosmetics before products marketed will be dealt with according to the relevant provisions in the 7th item in 45th article of “Cosmetic Health Supervision Regulations Implementing Rules”.
